

# THINGS NOT TO DO IN BINGO HALLS

Every bingo hall has its own set of rules, so make sure that you read and comply with them properly. People who come there to play bingo are usually quite friendly, however there are certain things which may make others uncomfortable. Here are a few things that one must avoid in bingo halls.

Don't make any noise when the caller is about to start calling numbers.

Do not blame or fight with the caller if you're on a losing streak.

If your kid's are accompanying you along then make sure that your kids stay quiet inside the hall.

Never repeat the number after the caller as it can distract others.

Never shout bingo before double checking your cards as it may disrupt rhythm of the game.

Avoid smoking in undesignated areas, when you are in a bingo hall.
