

# Superstitions That Exist In Bingo

Bingo is a game of luck. Thus, a lot of people have certain superstitions which they believe would help them increase their winning odds. Here are a few superstitions that are believed by many bingo players;

## Lucky Charms

Most players carry a good luck charm with them to the bingo hall. The most common lucky charms are troll dolls, four leaf clover key chains, rabbit's feet etc.

## Coins

Some bingo players consider carrying special coins as a lucky thing for them. They often place these coins on the table in a specific pattern before the game starts.

## Lucky Numbers

Several numbers are considered as signs of fortune by bingo players and most people tend to purchase a bingo card which has their lucky number on it.

## Daubers

Some people may have a lucky dauber. They might want to play with a particular dauber as they tend to believe that playing with a specific dauber would ensure their win.

## Lucky Seats

If a player consistently wins by sitting on a particular seat, then he/she might consider that seat lucky for themselves. So, they tend to stick to that seat in order to increase their chances of winning.
